

Tugas Seleksi Beasiswa Semesta 2022

# WEB DASHBOARD PONPES DARUSSALAM

By : Hafidz Firman Abdullah

# Hafidz Firman Abdullah

Web Developer

## PROFILE

Saya seorang freshgraduate yang memiliki ketrampilan dalam mendesain berbagai website dan menguasai beberapa bahasa pemrograman

## BAHASA PEMROGRAMAN

- HTML & CSS
- JAVASCRIPT
- PHP

# TOOLS :

Code editor

laravel

Framework PHP

Framework CSS

# **FITUR :**

**Multi Authorization**

**CRUD data tugas & nilai**

# MULTI AUTHORIZATION / USER

## Tampilan Santri

TERMINAL: SEKOLAH AGRIKULTUR

# Problem Ketika Ngoding

Pembuatan  
Middleware ???

# Cara Mengatasinya :

1. Buat File **Is\_admin.php** di **app/Http/middleware** dan tuliskan :  
Atau Bisa cukup dengan ketikkan di command prompt :

```
php artisan make:middleware Is_admin
```

```
<?php

namespace App\Http\Middleware;

use Closure;
use Illuminate\Http\Request;

class IsAdmin
{
    /**
     * Handle an incoming request.
     *
     * @param \Illuminate\Http\Request $request
     * @param \Closure(\Illuminate\Http\Request): (\Illuminate\Http\Response|\Illuminate\Http\RedirectResponse) $next
     * @return \Illuminate\Http\Response|\Illuminate\Http\RedirectResponse
     */
    public function handle(Request $request, Closure $next)
    {
        if( !auth()->check() || !auth()->user()->is_admin ){
            abort(403);
        }
        return $next($request);
    }
}
```

# Cara Mengatasinya :

2. Daftarkan file tadi ke **Kernel.php**  
dengan nama admin  
di **app/Http/Kernel.php**

```
.....  
protected $routeMiddleware = [  
    'auth' => \App\Http\Middleware\Authenticate::class,  
    'auth.basic' => \Illuminate\Auth\Middleware\AuthenticateWithBasicAuth::class,  
    'auth.session' => \Illuminate\Session\Middleware\AuthenticateSession::class,  
    'cache.headers' => \Illuminate\Http\Middleware\SetCacheHeaders::class,  
    'can' => \Illuminate\Auth\Middleware\Authorize::class,  
    'guest' => \App\Http\Middleware\RedirectIfAuthenticated::class,  
    'password.confirm' => \Illuminate\Auth\Middleware\RequirePassword::class,  
    'signed' => \Illuminate\Routing\Middleware\ValidateSignature::class,  
    'throttle' => \Illuminate\Routing\Middleware\ThrottleRequests::class,  
    'verified' => \Illuminate\Auth\Middleware\EnsureEmailsVerified::class,  
    'admin' => \App\Http\Middleware\IsAdmin::class,  
];  
.....
```

## Cara Mengatasinya :

3. Tambahkan Kedalam Route Yang ingin kita batasi seperti berikut :

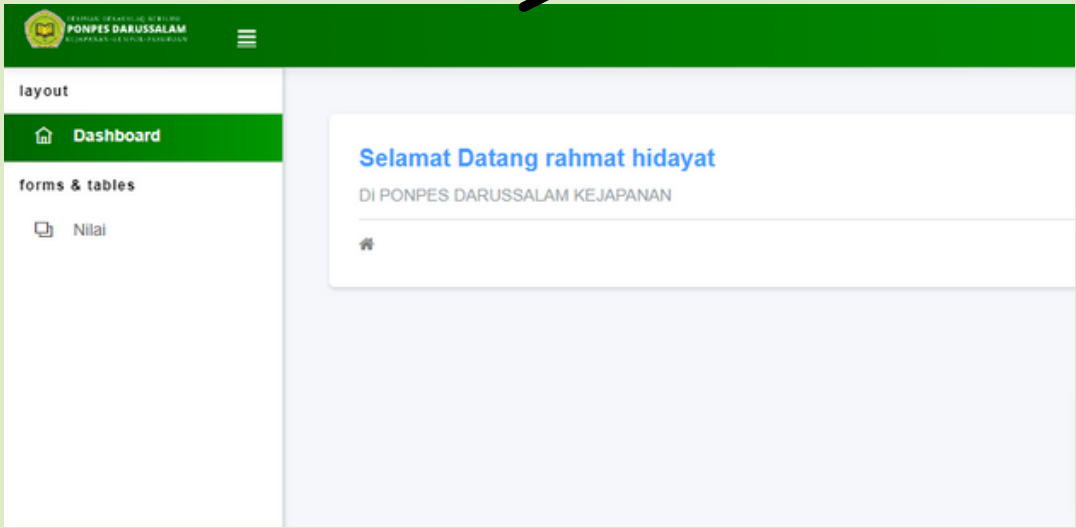

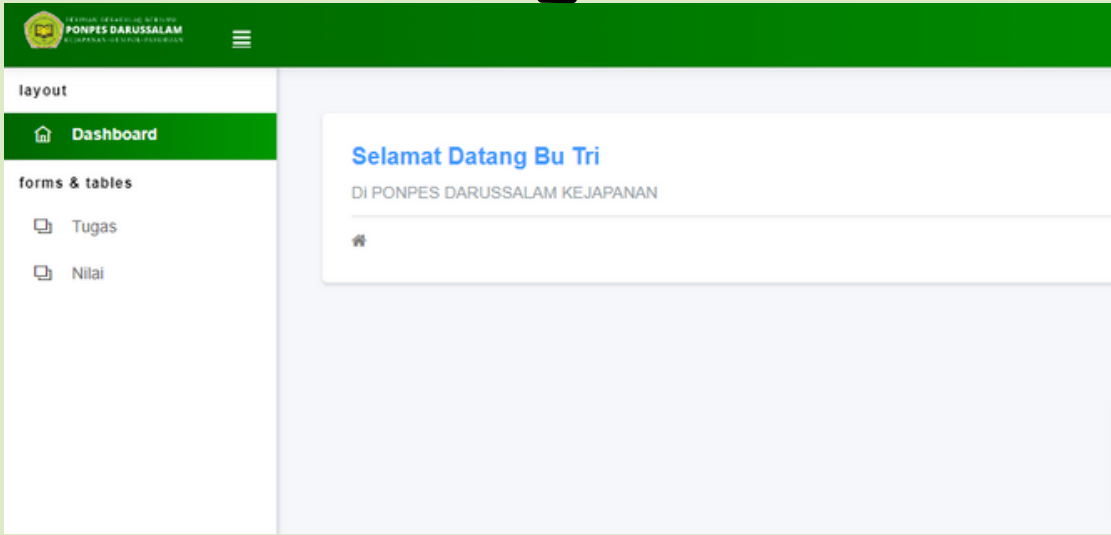

```
Route::resource('tugas', TaskController::class)->middleware(['admin']);
```

4. Terakhir, Jika kita ingin hanya menampilkan sebagian content saja Cukup dengan :

```
@can('admin')  
.....  
@endcan
```

# Cara Penggunaannya

「LOGIN!」

THANKYOU
